Lab 1: Matlab Training

Visit the following website: https://www.mathworks.com/learn/tutorials/matlab-onramp.html

and perform the following tasks and attach the Certificate acquired from MathWorks as part of the lab Report
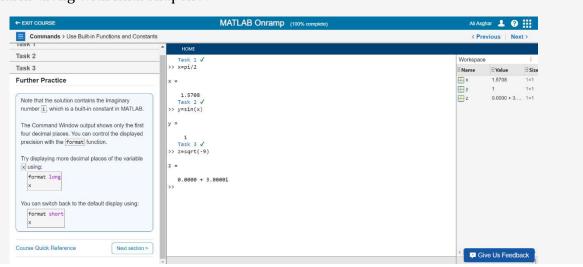

1. **Course Overview**
   a. Objective: Familiarize yourself with the course.
   b. Remarks along with final snapshot

   Remarks: I learned about the content of this course.
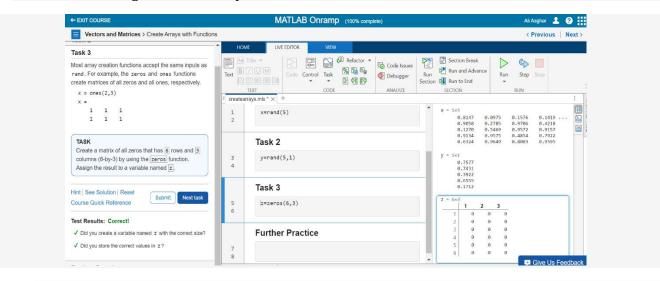

2. **Commands**

   a. Objective: Enter commands in MATLAB to perform calculations and create variables.

   b. Remarks along with final snapshot

   Remarks: I learned about basic commands of MATLAB in this introductory module.
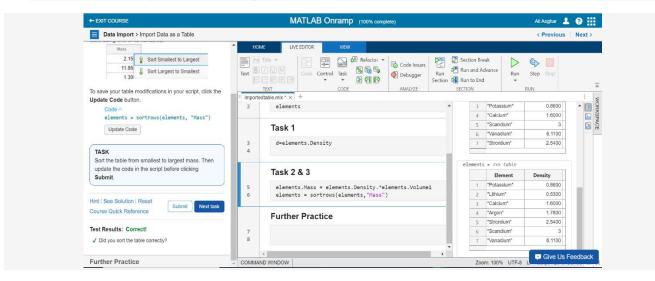

3. Vectors and Matrices

a. Objective: Create MATLAB variables that contain multiple elements.

b. Remarks along with final snapshot

Remarks: In this module, I performed some operations on Vectors and Matrices in MATLAB. I got familiar with Vectors and Matrices manipulation.
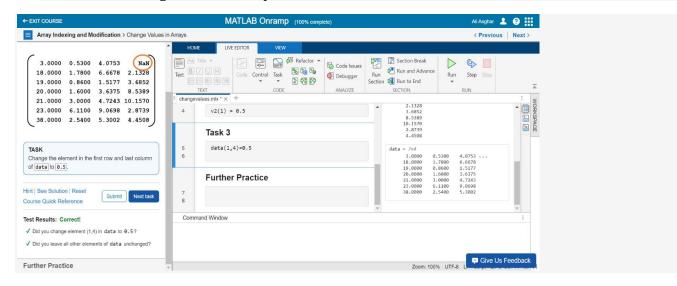

4. Importing Data

a. Objective: Bring data from external files into MATLAB.

b. Remarks along with final snapshot

Remarks: I learned about importing data from external files in MATLAB in this module.

5. Indexing into and Modifying Arrays
    a. Use indexing to extract and modify rows, columns, and elements of MATLAB arrays.

    b. Remarks along with final snapshot

Remarks: I learned the technique of array indexing to extract and modify rows, columns, and elements of MATLAB arrays.
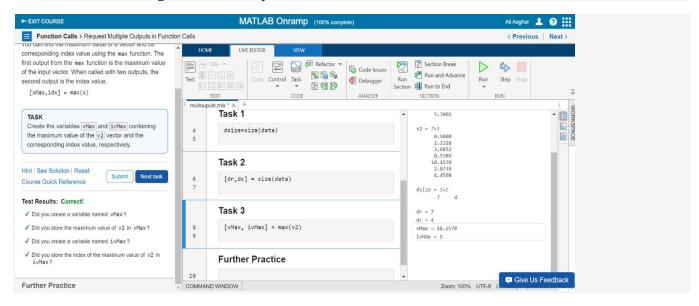

6. Array Calculations

    a. Objective: Perform calculations on entire arrays at once.

    b. Remarks along with final snapshot

Remarks: I learned some quick matrix operations in MATLAB. Some worth mentioning are scalar and element-wise multiplication.
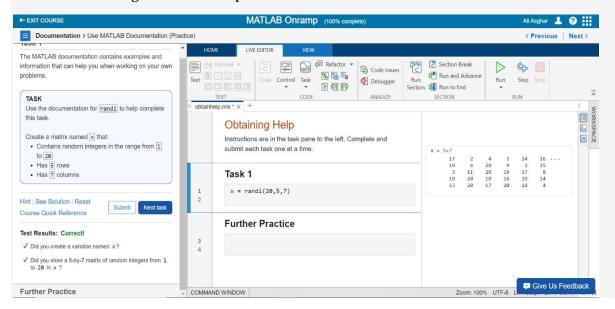

7. Calling Functions

a. Objective: Call functions to obtain multiple outputs

b. Remarks along with final snapshot

Remarks: I learned how to get multiple return values from built-in functions.
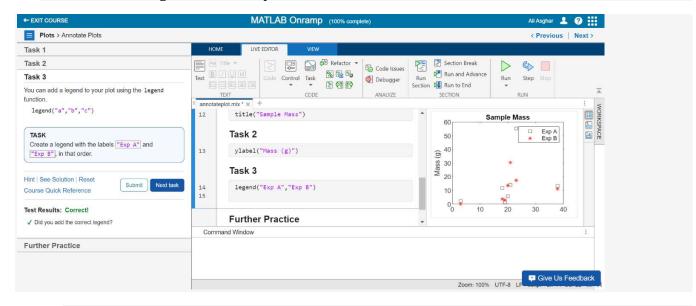

8. Obtaining Help

a. Objective: Use the MATLAB documentation to discover information about MATLAB features.

b. Remarks along with final snapshot

Remarks: I learned how get help from MATLAB's online documentation.
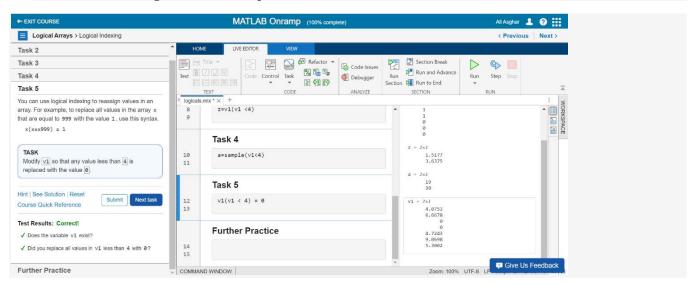

9. Plotting Data

    a. Visualize variables using MATLAB's plotting functions.

    b. Remarks along with final snapshot

Remarks: I learned how to plot data using different styles.
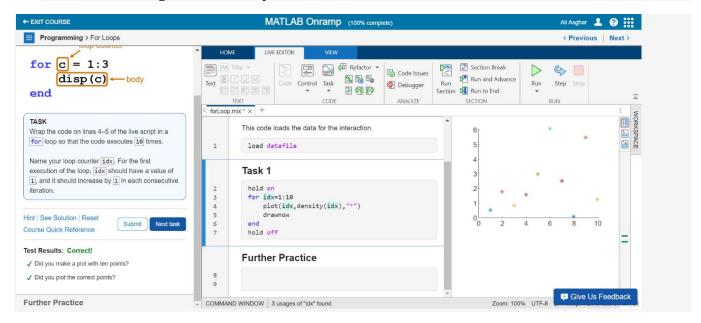

10. Logical Arrays

    a. Objective: Use logical expressions to help you to extract elements of interest from MATLAB arrays.

    b. Remarks along with final snapshot

Remarks: I acquired the ability to utilize relational operators and logical indexing in MATLAB arrays to extract specific elements of interest.

11. Programming

  a. Objective: Write programs that execute code based upon some condition.
  b. Remarks along with final snapshot

Remarks: I learned how to use branching(if-else) and loops in MATLAB.

12. Final Project

  a. Objective: Bring together concepts that you have learned with a project.

  b. Remarks along with final snapshot

Remarks: Lastly, I brought all the pieces together and completed the final project.

13. MathWorks Certificate

MathWorks® | *Training Services*

Course Completion Certificate

Ali Asghar

has successfully completed **100%** of the self-paced training course

MATLAB Onramp

DIRECTOR, TRAINING SERVICES

26 September 2023
