

TASK 1 :
DCSE UET PESHAWAR
MBSD Spring 2024

- a) Create a delay of 10msec
- b) Turn ON an LED for 8msec and then turn OFF for 4msec. Do it continuously.

Verify the above two tasks on Proteus using an oscilloscope.

Hint: Read chapter 2 and 3.

SETB P1.1 // Turn ON LED at pin 1 of port 1

CLR P1.1 // Turn OFF LED

Note: Use assembly Language
