1.4	About TeXnicCenter	6

1. Installing TeXnicCenter

In this chapter (the only chapter of this document), the step-by-step instructions for downloading and installing TeXnicCenter on a personal computer are provided. Before installing TeXnicCenter, make sure that MiKTeX and a PDF viewer (such as Acrobat Reader) are already installed on your computer.

1.1 Download

The download process of TeXnicCenter is as follows.

1. Go to the website <https://www.texniccenter.org/download>.
2. Choose the download appropriate for your system (see Figure 1.1).

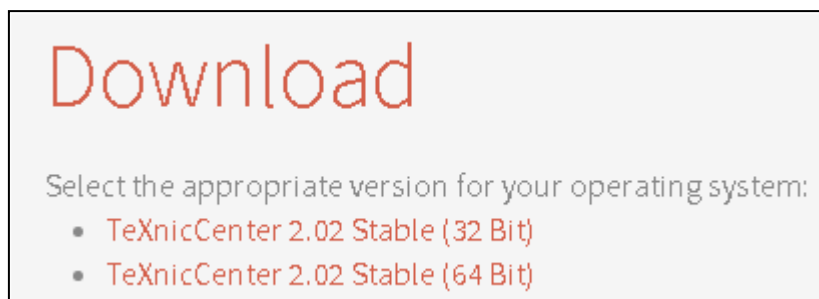

Figure 1.1: TeXnicCenter download website view

3. Wait until the download finishes.

1.2 Installation

The installation process can be carried out as follows.

1. Double click the downloaded .exe file.
2. Allow the **User Account Control** to start the installation process.
3. In the installation wizard, click **Next** to initiate the process. Also check the **I accept the agreement** radio button before clicking on **Next** again.
4. Choose the rest of the settings as you prefer. It is recommended to make TeXnicCenter the default LaTeX editor.
5. Start the installation process by clicking **Install**.
6. Wait for the installation process to complete.
7. Once, the installation is completed, click **Finish**.

1.3 TeXnicCenter Configuration

Open the TeXnicCenter application. While running TeXnicCenter for the first time, the user is prompted to choose MiKTeX or any other TeX distribution to be linked with TeXnicCenter. The user is also required to enter the file address of the PDF application to be linked with TeXnicCenter

1. Make sure that you choose MiKTeX.
2. Provide the address of the PDF reader application (for example C:\Program Files\Adobe\Reader 11.0\Reader\AcroRd32.exe).

TeXnicCenter is ready for use.

1.4 About TeXnicCenter

TeXnicCenter provides a LaTeX editing platform for Windows. Document navigation is very convenient when using TeXnicCenter. It is free to download and install. The product is open source. TeXnicCenter makes working with available templates very easy. Expert level LaTeX skills are required for making own document templates.
